

PIAZZETTA DESIGN SURROUND: WAVE

TOWN & COUNTRY TCW120

Decorative Wood-burning Fireplace

PIAZZETTA DESIGN SURROUND: ELEMENT

A wood-burning fireplace imbued with the same design quality and industry-leading features of Town & Country gas fireplaces. The quick-lighting, and EPA-qualified TCW120 features AirWash Technology for a clear view of its warm, expansive flame. You can further enhance its exquisite architecture by choosing from Town & Country's exclusive collection of handcrafted ceramic surrounds by premium Italian manufacturer, Piazzetta.

Due to elevation and fuel type, flame characteristics might not be exactly as shown. Visit a showroom near you to experience the true beauty of live Town & Country flames.

ALUKER

BETTER PERFORMANCE AND A BRIGHTER FLAME

TCW120 fireboxes are lined with Aluker® panels, the exclusive refractory ceramic material patented by Piazzetta to improve combustion and heat dispersal, as well as enhances the brightness of the fire. Aluker® provides extraordinary energy storage and outstanding resistance to high temperatures - plus safety, reliability and easy maintenance.
